

NETGEAR 8-port Ultra60 PoE++ Multi-Gigabit (2.5G) Ethernet Unmanaged Switch

Control and Configure Beyond Plug-and-Play Connectivity

NETGEAR brings the first Unmanaged Multi-Gigabit PoE++ switch MS108UP with 60Watts per port Ultra60 PoE++ technology, ideal for powerful PoE++ installations with PoE budgets up to 230W, a compact size, plug-and-play installation, and reliable performance at affordable prices. The new model

MS108UP supports 2.5 Gigabit speed connectivity and Power-Over-Ethernet (PoE) that can provide up to 60W/ port. The new switch model can power devices such as VoIP phones, surveillance IP cameras, wireless access points and many other applications. This new Unmanaged switch provides

PoE Auto-Balance to help automatically balance the PoE power based on the device needs independent of PoE class detected. With the growing deployment of applications and an all-in-one solution, providing multi-speed and high power to these applications would be ideal.

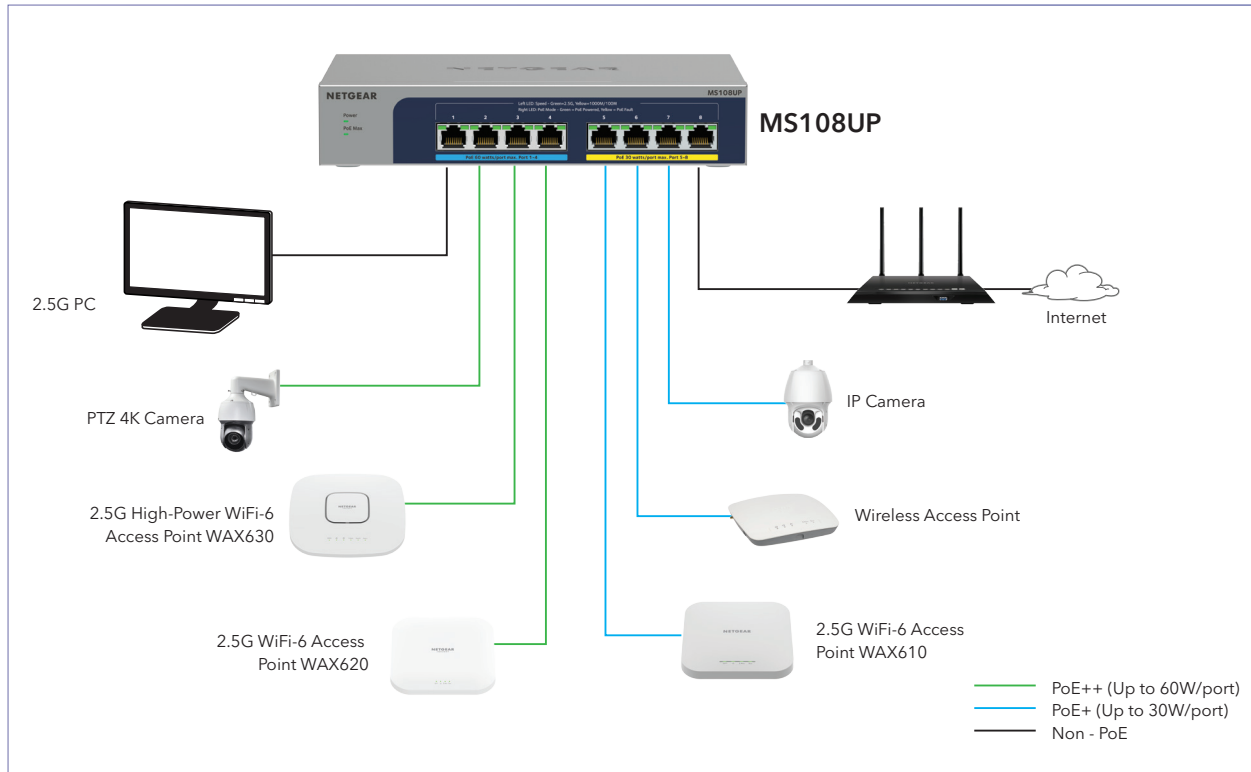

Highlights

- 802.3bt standard offering up to 60W/ port on Port 1-4, 802.3at (30W/port) on Port 5-8.
- 230W total PoE budget available across 8 ports.
- Simple set up with no software or configuration needed.
- Easy monitoring through per port LEDs for port activity and speed.
- Unique PoE Auto-Balance technology automatically balances the PoE power based on the device needs independent of PoE class detected. The switches deliver the power the device needs, at the most granular level.
- Energy Efficient Ethernet (IEEE 802.3az) support for maximum power savings.
- 8 ports of multi-gig 1G/2.5G speeds to connect devices instantly and give them each exactly the speed they need: 1G or 2.5G automatically.
- Non-blocking switching architecture for maximum throughput at wire speed
- Fanless, silent operation with desktop and rack-mounting options
- Lifetime 24/7 Chat Technical Support*
- Next-Business-Day Hardware Replacement**
- Limited Lifetime Hardware Warranty
