

Category 5e FTP 2020 Series High Density Panels

The Connectix 2020 Series Patch Panel is an alternative to the High Density Panel. Connectix 24 Way Panels achieve optimum transmission performance by incorporating the highest quality components and innovative on-board compensation techniques.

When combined with Connectix Modules and UTP Cable the link will perform well in excess of the stated Specification. LC, SC, ST and FC fibre modules are also available, complete with a Starlight compatible gland hole and integrated management tray.

Features & Benefits

- Presents cable termination IDC's horizontally at the rear of the panel for easier termination and cable management
- Write-on designation labels with surface for application of custom printed labels
- Extended PowerSum characterestics and exceeds the ANSI/ TIA-68-C specifications
- Blank modules can be included for future expansion

| Product Specifications | |
|------------------------|---|
| Width (mm) | 483 (19") |
| Depth (mm) | 98 |
| Height (mm) | 44 (1u) |
| Fixing Centres (mm) | 467 |
| Material | Mild steel sheet CR4 to BSEN 10130-1999 DC01 |
| Finish | Matte black polyester paint |
| Socket | High Performance side entry RJ45 jacks |
| Socket Labels | Write-on silk screen on panel front |
| IDC Labels | Colour coded labels to T568B |
| Cable Management | Improved cabling facility with easy to use cable tie positions for left and right cable entry |
| IDC Blocks | 4-way industry standard IDC blocks |
| Conforms To | ANSI/TIA-568-C |
