

Category 6 UTP 2020 Series High Density Panels

The Connectix 2020 Series Patch Panel is an alternative to the High Density Panel. With a horizontal IDC tray for easier cable termination and management, this panel combines quality components and advanced features for reliable, optimized network performance.

Features & Benefits

- Horizontal IDC termination tray for simplified cable management
- High-quality components and on-board compensation for superior transmission performance
- Front write-on designation labels, with space for custom printed labels for clear identification
- Extended PowerSum characteristics that exceed ANSI/TIA-568-C specifications
- Optimal performance when used with Connectix Modules and UTP Cables, surpassing standard specifications
- Compatible with LC, SC, ST, and FC fibre modules, featuring a Starlight-compatible gland hole and integrated management tray
- Blank modules available for easy future expansion

Product Specifications	
Width (mm)	483 (19")
Depth (mm)	30
Height (mm)	44 (1u)
Fixing Centres (mm)	467
Material	Mild steel sheet CR4 to BSEN 10130-1999 DC01 Plastic inserts ABS thermoplastic resin with grade UL94 V0 at 1.5 mm flame retardancy
Finish	Matte black polyester paint
Socket Labels	Write-on silk screen, on panel front
IDC Labels	Colour coded labels to T568B
Cable Management	Improved cabling facility with easy to use cable tie positions for left and right cable entry
IDC Blocks	4-way industry standard IDC blocks
Conforms To	ANSI/TIA-568-C
