

Category 6 FTP 2020 Series High Density Panel

The Connectix 2020 Series Patch Panel is an alternative to The High Density Panel. It offers the same performance as the standard panel but has been designed to present the cable termination IDCs horizontally on a tray at the rear of the panel, making termination and cable management easier.

Connectix 24 Way Panels achieve optimum transmission performance by incorporating the highest quality components and innovative on-board compensation techniques.

Features & Benefits

- Write-on designation labels with surface for application of custom printed labels
- Extended PowerSum characteristics
- Exceeds the ANSI/TIA-568-C Specifications
- When combined with Connectix Modules and UTP Cable, the link will perform well in excess of the stated specification

Product Specifications	
Width (mm)	483 (19")
Depth (mm)	98
Height (mm)	44 (1u)
Fixing Centres (mm)	467
Material	Mild steel sheet CR4 to BSEN 10130-1999 DC01
Finish	Matte black polyester paint
Socket	High Performance side entry RJ45 jacks
Socket Labels	Write-on silk screen, on panel front
IDC Labels	Colour coded labels to T568B
Cable Management	Improved cabling facility with easy to use cable tie positions for left and right cable entry
IDC Blocks	4-way industry standard IDC blocks
Conforms To	TIA-568-C.2
